

**International week 2023,
Faculty of Sciences**

Between 22 and 26.05.2023, at the Lucian Blaga University in Sibiu and implicitly at the Faculty of Sciences, took place the ninth edition of the International Week 2023, under the auspices of *Erasmus without papers*, *Erasmus without borders*. Thus, within the Faculty of Sciences, ten lectures were held (7 with physical presence in the room of the guest, 3 online, with projection and participation in the room), given by teaching staff from universities in the USA, India, Italy, Bosnia and Herzegovina, Finland and Turkey. Both teaching staff and students of the Faculty of Sciences, as well as other international participants in International Week 2023 participated in these lectures, totaling approx. 100 people. Event coordinator was Assistant Professor, Ph.D. Oana Viorica Danci.

The main objectives of the event were: creating long-term academic networks between universities around the world to overcome current challenges in university education; promoting a new direction towards internationalization in a digital world, in order to generate significant changes and impact among higher education institutions; facilitating the exchange of information regarding the best practices in the field of internationalization, as well as in the didactic and research fields.
